note continued

Subject and his wife both attended Young Communist League (YCL) and CP meetings in late 1930's. He was "an associate" of known CP member in California 1944 and 1946. No recent info has been developed re CP activities on part of subject or his wife. Breslow, during 1950's, was the subject of LGE and LEUN investigations, and he resigned or was otherwise separated from each position prior to a decision being made on his loyalty.

Since he appears now to have assumed a position of respectability, it is very possible that he might take offense at any approach made to him by the FBI at this time. The possibility of embarrassment outweighs any probable value that we could gain from such an interview. If he has been approached by Czech intelligence or is otherwise engaged in subversive activities, it is felt that matter will come to attention of SF in the future. If any action is necessary at that time, the case can be re-evaluated.

the University of Minnesota from 1935 to 1937 and that LESTER BRESLOW was a member of his YCL group.

During interviews conducted in 1953 and on 10/14/57 and 10/31/57 KENNETH WILLIAM CHAPMAN, Washington, D.C. advised he knew LESTER BRESLOW as a fellow intern at the United States Marine Hospital, Staten Island, New York in 1938-1939. During this time CHAPMAN saw BRESLOW and his wife ALICE at CP meetings on several occasions and observed them paying CP dues. CHAPMAN also learned through one [redacted] a nurse at the nearby Seaview Hospital in Staten Island, that BRESLOW and his wife had been communists previously.

Associates and fellow students of the Subject have advised that while he was a student at the University of Minnesota from 1932 to 1938 he displayed a sympathetic interest in the CP and communist causes and that he was affiliated with communist front organizations.

[redacted] has advised that the Subject was an associate of JEROME and SHERNA VINOGRAD in the San Francisco area in 1944 and 1946. JEROME VINOGRAD has been identified by confidential informants as a member of the CP at Los Angeles in 1936 and 1937 and in Alameda County, California in 1944. No recent information has been reported indicating communist activities or associations on the part of the Subject.

V. A confidential informant has advised that from 1935 to 1938 he was acquainted with ALICE PHILP who later married the Subject. During this time the informant was a member of the YCL and attended several meetings of this organization. [redacted]

KGT:ERG

KENNETH WILLIAM CHAPMAN has advised that he observed ALICE BRESLOW at CP meetings in 1938-1939 as set out under IV. above.

No recent information has been reported indicating communist activities or associations on the part of ALICE BRESLOW.

VI. Inasmuch as the Subject's present sympathies with respect to communism and the extent of his possible communist associations are not known, his potential as an informant cannot be evaluated. His potential as a double agent would depend on the nature and extent of his contacts while he was in Czechoslovakia.

VII. It is felt that the Subject may not consent to interview because of his apparent reluctance to discuss his alleged communist activities.

Referral/Consult

The Subject appears to have deliberately ignored answering the Interrogatory sent him by CSC in February, 1958 although he was assured by CSC in March, 1958 that the WHO had requested completion of adjudication of his case and was not advised by CSC that his services were not longer required until July, 1958.

It is felt that interview of the Subject is desirable to determine his degree of cooperation and, if he is cooperative, to develop information concerning his alleged CP activities.

It is believed Subject's history of CP activity makes it more likely that he may have been

SF 100-32484
KGT:ERG

approached for intelligence purposes while he was in Czechoslovakia and that he may have responded favorably to any such approach. It is believed that this possibility should be explored.

VIII. It is expected that interview of the Subject ~~will~~ develop information concerning his CP activities and his visit to Czechoslovakia and that such information will provide a basis upon which a more accurate appraisal of his informant and double agent potential may be made.

IX. It is believed the Subject should be advised of the Bureau's jurisdiction and responsibilities in security matters and that because of these responsibilities are soliciting his cooperation in discussing with us allegations of past communist activities. It is believed the Subject probably would be more responsive to an interview in which he is asked to furnish information which can assist the Bureau in meeting its responsibilities than to one in which he is asked to explain and justify his past activities.

It is believed that Subject could be questioned concerning any foreign travel in which he has engaged in the course of this interview and that this would bring out the fact that he had visited Czechoslovakia without fear of compromising the original source.

Bureau authority is requested to interview Subject in accordance with existing instructions relating to interviews of security subjects. Care will be exercised to protect the original source in this matter. No direct questions will be asked during the interview

Referral/Consult

SF 100-32484
KGT:ERG

The interview will be conducted in a manner so that the Subject will volunteer the details of the contact.

If this Subject is cooperative, no affirmative steps will be taken during the initial interview to direct his activities, but a separate communication will be directed to the Bureau setting forth the results of the interview and requesting authority to recontact the Subject as a potential security informant or double agent.

Dear Mr. Watson:

Mrs. Mildred Stegall has requested a name check on Dr. Lester Breslow, who was born on March 17, 1915, at Bismarck, North Dakota.

Dr. Breslow has been the subject of security- and loyalty-type investigations conducted by the FBI. He reportedly was a member of the Young Communist League (YCL), according to one source, from 1935 to 1937. Another source advised the FBI that during the period 1938-39, Dr. Breslow and his wife were allegedly dues-paying members of the Communist Party. Associates and fellow students of Dr. Breslow advised that while he was a student at the University of Minnesota from 1932 to 1933 he displayed a sympathetic interest in the Communist Party and communist groups and he was also affiliated with communist front organizations.

A confidential source advised that he had been acquainted with Alice Philp and knew her to have been a member of the YCL from 1935 to 1938 [redacted]

With respect to the two loyalty-type investigations conducted during the 1950's regarding Dr. Breslow, the Civil Service Commission (CSC) advised that he resigned or was otherwise separated from each position prior to a decision being made on his loyalty. In connection with the adjudication of the above cases, it appeared to the CSC that Dr. Breslow deliberately ignored answering the Interrogatory sent to him by that agency in February, 1958.

FBI files contain no additional pertinent information regarding Dr. Breslow.

Civil fingerprints were located in the files of the FBI Identification Division which may be identical with those of Dr. Breslow. These fingerprints were searched through the criminal files of the Identification Division and no arrest record was located.

RESULTS OF INVESTIGATION

[redacted] Personnel Assistant, National Security Resources Board, Executive Office of the President, advised that her office also handles the personnel files for the President's Commission on Health Needs of the Nation. Miss FUNK stated that at the present time LESTER BRESLOW is employed on a contract basis, which is not covered by Executive Order 9835. She advised that Mr. BRESLOW is operating on a "whenever actually employed" status at the present. Continuing she related that as soon as Mr. BRESLOW's loyalty clearance is received he will become an indefinite appointee in the Executive Branch of the Government and will be covered under Executive Order 9835. She advised that technically speaking he is still considered an applicant, although he is actually performing his duties as a Staff Assistant at the present.

[redacted] stated that Mr. BRESLOW first entered on duty in Washington, D. C., on March 1, 1952. His personnel file contains no information relative to his loyalty.

The Security Office, Executive Office of the President, contains no information relative to Mr. BRESLOW's loyalty.

Dr. PAUL MAGNUSON, Chairman, President's Commission on Health Needs of the Nation, advised that Mr. BRESLOW is a member of his staff and has been working with him in Washington since the first of March, 1952. Dr. MAGNUSON stated that Mr. BRESLOW works for a two-week period in Washington, returns to California for two weeks to engage in his own business, and then returns to Washington again for another two-week period.

Dr. MAGNUSON advised that at the present time there are no other individuals working closely enough with Mr. BRESLOW to be in a position to furnish information concerning his loyalty. He related that personally he is not well acquainted with the applicant, inasmuch as he has only known him for about six weeks. He stated, however, that he knows absolutely nothing of a derogatory nature concerning the applicant's loyalty.

[redacted] Desk Clerk, Lafayette Hotel, stated that LESTER BRESLOW has been residing at the hotel intermittently since March 31. She advised that nothing has come to her attention which would reflect in any way on the applicant's loyalty.

b6
b7C

[redacted] Manager, Lafayette Hotel, related that he does not know the applicant, nor has any information concerning him been brought to his attention.

During the course of a previous investigation conducted by the Federal Bureau of Investigation in 1949, [redacted]

[redacted] advised that he was formerly at the University of Minnesota. He advised that he was acquainted with several individuals whom he believed to be Communists in and around Minneapolis, Minnesota. At that time [redacted] remarked that LESTER BRESLOW, a former student at the University of Minnesota, was an individual who definitely believed the Communist principles and who followed the Communist Party line. At that time [redacted] characterized Mr. BRESLOW as being from around Minneapolis, and whose father was a pharmacist. He stated at that time that he believed BRESLOW was studying medicine at the University of Minnesota.

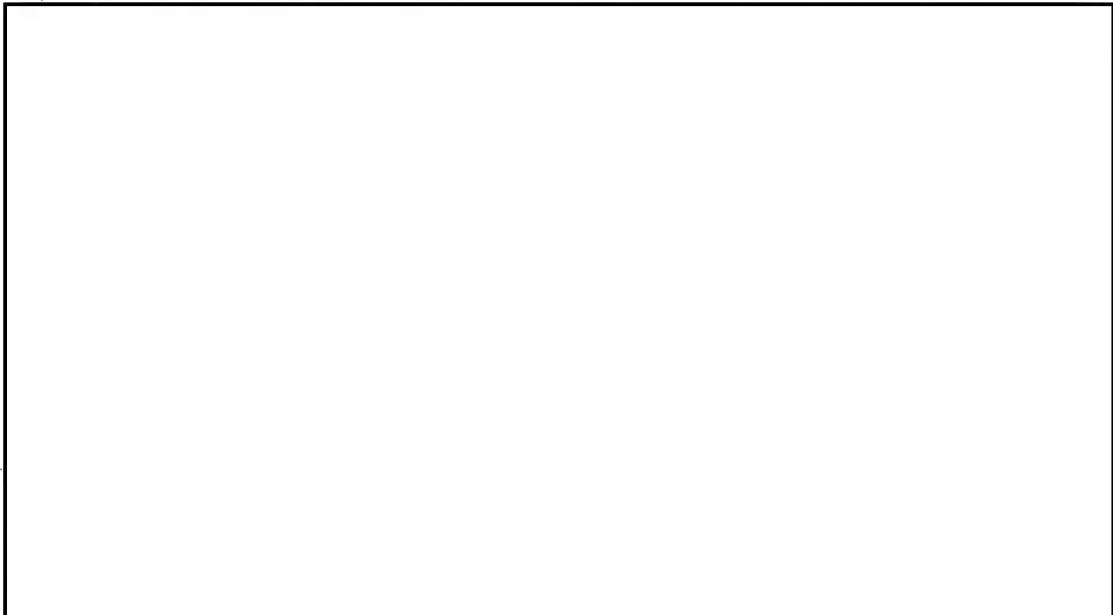

b7D

On recontact, [redacted] furnished the following signed statement:

"April 28, 1952
Washington, D. C.

"I, [redacted] make the following free and voluntary statement to Marion E. Cheek, who has identified himself to me as a Special Agent of the Federal Bureau of Investigation, U. S. Department of Justice.

"I am willing to testify before a Loyalty Hearing Board. I have no objection to having my identity disclosed to a Loyalty Board or to being cross examined by Mr. BRESLOW's counsel.

"I have read this statement consisting of this and one other page and it is true and correct to the best of my recollection.

b7D

b6
b7C

/s/ [redacted]
28 April 1952

"Witness:

/s/ [redacted]
Special Agent, F. B. I."

In addition to the above statement, [redacted]
pointed out that based on [redacted]

[redacted] he was clearly convinced at that time that BRESLOW definitely believed in the Communist Party principles and that his ideas were very firm and definite in that regard. He stated that he understands that Mr. BRESLOW was studying medicine at the University and that he later became a doctor and engaged in some form of public health work.

The National Student League mentioned by [redacted] has been cited as a Communist front organization (page 87, Guide to Subversive Organizations and Publications, prepared and released by the Committee on Un-American Activities, U. S. House of Representatives, May 14, 1951).

The files of Washington T-1, a government agency which conducts personnel and intelligence investigations, contained no additional pertinent information.

No record of the applicant was located at the House Committee on Un-American Activities: Washington T-2. [redacted] the [redacted] Metropolitan Police Department, Washington, D. C., or The Credit Bureau, Washington, D. C.

The appointee's name was checked against the records of the Identification Division of the Federal Bureau of Investigation and no criminal record was found.

EMPLOYMENT

JEROME BROWER, Chief of Section of Departmental Administration, Minnesota State Department of Health, State Office Building, St. Paul, Minnesota, advised that he was acquainted with applicant during the time applicant was employed as a Public Health Officer in the early 1940's. Mr. BROWER stated that his knowledge of BRESLOW was solely as a supervisor in the department who cleared BRESLOW's expense account. Mr. BROWER stated that no reports concerning any Communist party activity on the part of the applicant had ever come to his attention during the time applicant was employed by the department. Mr. BROWER made available the present service record of the applicant.

Mr. BROWER stated that applicant was hired as an epidemiologist by the Minnesota State Department of Health on July 1, 1941, at a salary of \$250 per month, and assigned to District Health Unit #2, Office 212 City Hall, Rochester, Minnesota. Mr. BROWER stated that applicant was released from his employment with the State Department of Health on July 28, 1943, for the reason that he had enlisted in the United States Army Medical Corps. Mr. BROWER stated, however, that applicant's file reflected that BRESLOW was separated from the Army on February 2, 1946, being discharged from the 9th Service Command, Camp Beale, California, with the rank of Captain.

Mr. BROWER also stated that applicant's file reflected that he had resided at 70 Cambron Drive, Parkmerced, San Francisco, and at the residence of Mrs. N. S. PHILIP, 1665 East Mountain Street, Pasadena, during 1945 and 1946. Mr. BROWER stated that applicant resigned his position with the Minnesota State Department of Health February 28, 1946, for the reason that he had accepted a position with the California Department of Public Health. Mr. BROWER advised that applicant's personnel file contained no information which reflected upon his loyalty to the United States Government.

Mr. S. PAUL KINGSTON, Executive Engineer, St. Mary's Hospital, Rochester, Minnesota, residence, 1443 First Street Northwest, Rochester, advised that he was employed by the State of Minnesota as district public health engineer when Dr. BRESLOW was employed in Rochester by the State of Minnesota as district public health officer. At that time, they were both located and maintained joint offices in the City Hall at Rochester, Minnesota. He said that he worked with Dr. BRESLOW and associated a great deal with him during their working day and also associated socially with Dr. BRESLOW and his wife, so in this way, he felt that he became very well acquainted with the BRESLOW family. Mr. KINGSTON felt that he was possibly the closest associate that the BRESLOW family had during the approximately two years that they lived in Rochester. He said that the BRESLOW family associated entirely with people in the public health office and, in his opinion, he felt that their associates were people of high caliber. He said that Dr. BRESLOW was a very ambitious sort of a person and was extremely well thought of by his co-employees and the people who worked under him. He further described Dr. BRESLOW as being a man of excellent character and reputation and his personal and moral habits, in his opinion, were above reproach. He said that during his association with the doctor, he at various times had discussed the question of Communism, and he said that he could recall that Dr. BRESLOW expressed definite opposition to the Communist way of living. He stated that he had never known the doctor to have attended any meetings of a questionable nature and had never known him to possess any literature that he would have any reason to question.

Mr. KINGSTON further related that in his opinion he would classify Dr. BRESLOW, at the time he knew him, as a good, loyal American. He said it was hard for him to feel that BRESLOW was anything but a good, loyal American, in view of the fact that he volunteered for the armed services during the past war.

Dr. VIKTOR O. WILSON, State Public Health Officer and City Public Health Officer, 524 Southwest 7th Street, residence address, Rochester, Minnesota, advised that he first became acquainted with Dr. BRESLOW when Dr. BRESLOW first was

employed by the Minnesota Department of Public Health, which was approximately July of 1941. He said at that time, he was working in the main office of the Public Health Department in St. Paul, and Dr. BRESLOW, when first hired, started out working in that office in St. Paul before being transferred to Rochester, Minnesota. He said that his association with Dr. BRESLOW was entirely connected with their work in the Public Health Department. He said that he found him to be a very energetic sort of person, whose ability could not be questioned, and that he had no reason to question his loyalty and patriotism. He said that he considered Dr. BRESLOW to be somewhat liberal in his way of thinking along public health lines. Dr. WILSON qualified his remark by stating that he felt that BRESLOW was the type of person who was interested in expanding the public health field rather than to "go down the straight and narrow path set by his predecessors." Dr. WILSON stated that he in no way felt that this should reflect in any way on the loyalty of Dr. BRESLOW. He further stated that he knew no other associates of the doctor and his family other than the people with whom he worked.

Dr. WILSON stated he could not recall whether or not he had ever openly discussed the matter of Communism with Dr. BRESLOW, but felt that if, in anyway, the doctor had reflected any sympathies or interests, it would have been noted during the time that he had associated with him. He said that he had never known him to be a member of any organization whose ideas could be questioned, and he never knew him to have possessed any literature of a questionable nature. In conclusion, Dr. WILSON stated that from his knowledge and acquaintance with Dr. BRESLOW during the early 1940's, he would gladly rehire him if he had an occasion to do so.

Mrs. [redacted] City Health Department secretary and clerical supervisor, residence 21 Seventh Avenue Southeast, Rochester, Minnesota, advised she was working in the Public Health Office in Rochester, Minnesota at the time that Dr. BRESLOW was appointed head of the department. She stated that Dr. BRESLOW and his wife became close acquaintances of hers during the time they resided in Rochester. She stated that as best she could recall, Dr. BRESLOW remained in Rochester for approximately two years prior to his induction into the armed services, which would cover from approximately July, 1941 to the summer of 1943. She said that upon his discharge from the services in either 1945 or 1946, he was reinstated to his position with the State Department of Public Health; however, he did not return to Rochester, Minnesota. She further related

b6
b7C

that Dr. BRESLOW was a very ambitious type of person and spent a great deal of his time with his work. She stated that she had never had any reason to question his loyalty towards the United States; that he had never in any way reflected any Communist sympathies or interest; and that she never knew him to have attended any meetings of any sort, as she felt that all of his free time was absorbed with his duties as a public health director. She said that she did not have the opportunity to determine Dr. BRESLOW's political feelings or interests, but she did not feel he could be considered anything but a good, loyal American. She stated that Dr. BRESLOW's wife was a very intelligent woman and had her Ph.D in Psychology. In conclusion, Mrs. [redacted] stated that she would not hesitate to recommend Dr. BRESLOW for a position of trust.

b6
b7C

Mrs. [redacted] Rochester, Minnesota, who is employed as a psychiatrist at the Mayo Clinic, Rochester, advised that she had been a very close friend of Mrs. BRESLOW during the time they resided in Rochester, as Mrs. BRESLOW had also been employed on a part-time basis by the clinic as a psychiatrist. She said that during her association with Mrs. BRESLOW, she also met the doctor and considered them to be people of excellent character and reputation. She said that she found both Dr. and Mrs. BRESLOW to be very intelligent individuals and seemed to be very ambitious and wrapped up in their profession. She stated that she and her husband socially mixed with Dr. BRESLOW and his associates, and she found that he kept company with people of his own profession, largely individuals with whom he worked in the Public Health Office in Rochester. She stated she had no reason at any time to question the activities of Dr. BRESLOW and his wife. She said that she did not know what their political interests or feelings were, but she had no reason to believe that they were anything but honorable. She said that she would not hesitate to recommend Dr. BRESLOW for a position of trust in the Federal Government, as she had no information that he was anything other than a good, loyal American. She said that she had never known him to have been a member of any questionable organizations in Rochester, Minnesota, and had never known him to possess any literature that might be considered left-wing literature or even Communist literature.

Mrs. [redacted] Rochester, Minnesota, advised that she and her family formerly lived as neighbors to Dr. BRESLOW and his family on 11th Avenue Northwest. She said that the BRESLOW family lived only in this one residence during the time they were in Rochester and during this time, she

said that she became quite well acquainted with Mrs. BRESLOW. Mrs. [] further advised that during her association with the BRESLOW family as neighbors, she had learned to find them as people of very fine reputation and character. She stated that Dr. BRESLOW was somewhat of the retiring sort of an individual and thus made it quite difficult for them to get to know him very well. She said that he was an extremely hard worker, and for that reason, was not home a great deal with his family. She stated that she had no reason to question the activities of the BRESLOW family and felt them to be good, loyal Americans. She said that she did not know them well enough to know what they did in their spare time, but she had no reason to believe that they were ever any members of any questionable organization. She further related that the BRESLOW family were well regarded in the neighborhood; however, at the present time, she was unable to recall any other neighbors who knew the BRESLOW family who are presently residing in Rochester. She indicated that most of the people have either passed away or are no longer known to her. In conclusion, Mrs. POOL stated that she had no reason whatsoever to do anything but recommend Dr. BRESLOW for a position of trust which he is seeking with the Federal Government. She qualified this by stating that she fully realized that he could have changed his ideas and opinions since she knew the family in 1941 and 1942.

REFERENCE

Dr. GAYLORD W. ANDERSON, Director of Public Health School, 121 Millard Hall, University of Minnesota, Minneapolis, Minnesota, advised that he has known the applicant for the past fifteen years. Dr. ANDERSON stated that he first became acquainted with the applicant in approximately 1937 when Dr. BRESLOW was a student in the Under Graduate School at the University. Dr. ANDERSON advised that applicant was merely associated with him as one of his students in the Graduate School at the University of Minnesota, and that he has continued his association with the applicant on a friendly social basis to the present time. Dr. ANDERSON stated that applicant has a fine reputation, and in his opinion, is entirely trustworthy from a security standpoint and advised that applicant's American loyalty was unquestioned. Dr. ANDERSON stated that as evidence of the high esteem in which he holds Dr. BRESLOW, he offered Dr. BRESLOW the post of full professor, in the Public Health School at the University of Minnesota, during a recent meeting with Dr. BRESLOW in Washington D.C. Dr. ANDERSON stated in conclusion that no information reflecting upon applicant's American loyalty had ever come to his attention.

III RESULTS OF INVESTIGATION

Doctor W. F. PETTY, Regional Division, Missouri Department of Health, Mazon, Missouri, reports that he knows nothing derogatory concerning LESTER BRESLOW. He associated with him at the University of Minnesota for the six months period, January to June, 1941, while they were attending graduate school taking a course in Public Health service.

Doctor PETTY did not know BRESLOW socially and has not seen him since their school attendance except about four times at conventions. Doctor PETTY said that BRESLOW has never expressed any views which would make him think that he was not a loyal American. He voluntarily advised that BRESLOW was a high type individual who was well liked in public health work. He knows nothing of his affiliations or association while attending the University of Minnesota prior to the period mentioned above.

III RESULTS OF INVESTIGATION

Doctor W. F. PETTY, Regional Division, Missouri Department of Health, Macon, Missouri, reports that he knows nothing derogatory concerning LESTER BRESLOW. He associated with him at the University of Minnesota for the six months period, January to June, 1941, while they were attending graduate school taking a course in Public Health service.

Doctor PETTY did not know BRESLOW socially and has not seen him since their school attendance except about four times at conventions. Doctor PETTY said that BRESLOW has never expressed any views which would make him think that he was not a loyal American. He voluntarily advised that BRESLOW was a high type individual who was well liked in public health work. He knows nothing of his affiliations or association while attending the University of Minnesota prior to the period mentioned above.

Re San Francisco letter 4/21/60.

The Bureau does not believe that an interview of Dr. Lester Breslow would be desirable at this time.

If, however, any information comes to the attention of your office in the future which might indicate current subversive activities on the part of Dr. Breslow, you may desire to resubmit your request to interview him at that time or advise the Bureau that you are reopening his case for a security-type investigation.

Subject and his wife both attended Young Communist League (YCL) and CP meetings in late 1930's. He was "an associate" of known CP member in California 1944 and 1946. No recent info has been developed re CP activities on part of subject or his wife. Breslow, during 1950's, was the subject of LGE and LEUMI investigations, and he resigned or was otherwise separated from each position prior to a decision being made on his loyalty.

Since he appears now to have assumed a position of respectability, it is very possible that he might take offense at any approach made to him by the FBI at this time. The possibility of embarrassment outweighs any probable value that we could gain from such an interview. If he has been approached by Czech intelligence or is otherwise engaged in subversive activities, it is felt that matter will come to attention of SF in the future. If any action is necessary at that time, the case can be re-evaluated.

Reference is made to letter dated August 18, 1977, to the Director of the FBI requesting a full field investigation under the provisions of Executive Order (EO) 10450, as amended, concerning captioned individual. The basis for your referral was information in the files of the FBI concerning captioned individual who was the subject of a security-type investigation in 1952, and an applicant-type investigation in 1957, both of which were conducted by this Bureau.

The FBI files contain allegations by FBI sources that captioned individual was believed to be a Communist while at the University of Minnesota from 1932-1938, was a member of the Young Communist League at the University of Minnesota during 1935-1937, and was a member of and active in the Communist Party, USA, during the period 1938-1940. Captioned individual allegedly visited reported members of the Communist Party in Alameda County, California, during 1944. Captioned individual during 1950's was the subject of a Loyalty of Government Employees and Loyalty of Employees of the United Nations and Other Public Organizations investigations, and he resigned or was otherwise separated from each position prior to a decision being made on his loyalty.

The central files of this Bureau contain no additional pertinent information regarding captioned individual; therefore, this Bureau contemplates no investigative action under the provisions of EO 10450, as amended, without a specific referral in accordance with Section 8(d) of the EO.

This is furnished for your information and should not be disseminated to any unauthorized persons or agencies. This is not to be considered as a clearance or disapproval for employment of captioned individual.

Reprt of SA [] dated April 28, 1952.

Subsequent to dissemination of this report to the Bureau and offices receiving a copy of this letter, [] telephonically contacted WFO, on April 29, 1952, and advised that after careful reflection, he desired to strike one line from the signed statement which he executed on April 28, 1952.

[] advised that this line has to do with "had taken a stand with the working class," and that if this means revolution, O.K. He stated that he desired to delete the portion "and that if this meant revolution, O.K."

[] was advised that this would be done.

The Bureau, San Francisco, and Minneapolis are requested to delete the last four words of line 13 and the first 5 words of line 14 appearing in the synopsis of referenced report, which read "and that if that meant revolution it was alright."

Page 3 of referenced report should be corrected by deleting the last 7 words appearing in paragraph 4, which read "and that if this means revolution, ok."

The WFO copy has been corrected.

Minneapolis files reflect a letter to the SAC, Minneapolis, from EDWARD E. NICHOLSON, former Dean of Students, University of Minnesota, Minneapolis, (now deceased) dated 4/9/42, which is quoted as follows:

"Following is the information which I promised you when I visited you last.

"An article, 'Why I quit Communism,' in Harpers for July, 1937. *This not in Bureau.*

"The Doctor I mentioned is Dr. LESTER BREWLOW, formerly of our Student Health Service, now at the Public Health Service at Washington, D.C. BREWLOW was the number one student for six or seven years.

Investigation by Minneapolis to date has not established any connection between a above-mentioned article and Dr. LESTER BRESLOW.

2 | A review of the July, 1937, edition of "Harper's" magazine reflects that the article "Why I Quit Communism" was written by one STUART BROWNE and that this name is a nom de plume of the writer of the article. However, in reviewing this article it is believed it may well pertain to a professor at the University of Minnesota. Contact with survivors of Dean NICHOLSON and his successors at the University of Minnesota reveals no information which might clarify his reference to Dr. LESTER BRESLOW in the article in "Harper's" magazine.

A reliable source on the campus of the University of Minnesota, advises that Dean NICHOLSON was very closely associated with Col. CARROLL GEDDES, U.S. Air Force Intelligence, Washington, D.C., and that GEDDES was a former assistant to the Dean, University of Minnesota, prior to entry into the U.S.A.F. GEDDES now located 13 Center, Hunting Towers, Alexandria, Virginia.

WFO requested to interview Col. GEDDES re his knowledge of Dr. LESTER BRESLOW and any connection he may have with the aforementioned article in the July, 1937, edition of "Harper's" magazine. GEDDES should also be asked whether Dean NICHOLSON kept personal files on individuals and disposition of same when NICHOLSON retired from the University of Minnesota.

7 | New York is requested, if advisable, to contact publishers of "Harper's" magazine to determine author of above-mentioned article and, if appropriate, set forth lead to have author interviewed re Dr. LESTER BRESLOW.

[redacted] former SWI functionary, Minneapolis, Minn., who was active in the SWI on the campus of the University of Minnesota in the mid 1930's, advised that she knew BRESLOW at the University of Minnesota as a medical student who was interested in liberal politics. [redacted] recalls that she regarded BRESLOW as a pro-Stalinist and probably associated with the YCL on the campus, but she had no direct evidence to support this supposition. [redacted] said that recently she was reminded of BRESLOW when she read a book, "Not So Wild a Dream" by ERIC SEVAREID, wherein SEVAREID discussed campus politics at University of Minnesota during approximately 1932-1936.

A review of SEVAREID's book, mentioned above, reveals that in one chapter SEVAREID deals with liberal campus politics and personalities during pertinent period. SEVAREID indicates therein that he was aware of the identity of many Communists on University of Minnesota campus at that time. ERIC SEVAREID is now located Washington, D.C., and employed as a CBS news commentator.

WFO requested, if advisable, to contact SEVAREID for any information he may have regarding BRESLOW.

He remembered applicant and thought he was possibly involved with a group of students who were trying to stop compulsory ROTC training at the University. He said he did not remember anything specific about BRESLOW other than his academic reputation, which was very good. He said he knows Dean NICHOLSON kept personal files but he does not know their disposition. Also he said he has no info about the article appearing in "Harper's" Magazine, mentioned in reairtel.

GEDDES suggested the following possible leads:

[redacted] St. Paul, Minn.,
former personal assistant to Dean NICHOLSON; Col. PORTER P. WIGGINS, street address unknown, former executive officer of the U. of Minn. ROTC, who was a close confidant of the Dean's office and who was interested in the student "peace" groups at the University and in particular with the group trying to do away with compulsory ROTC; and a Mr. (FNU) HANSCOM, head of the Security Service, U. of Minn.

Col. GEDDES also advised that SA [redacted] (PH) of the MP Office worked in the dean's office in the latter 1930s and might possibly suggest other leads. Also GEDDES advised that Dr. HAROLD DIEHL (PH) was dean of the medical school from approximately 1937 to 1950 and possibly knows the applicant. He said he believes DIEHL is still in MP.

Minneapolis confidential informant T-1, who declined to furnish a signed statement or to testify before a Hearing Board, advised on May 14, 1952, that he had been a fellow student of LESTER BRESLOW [redacted]

[redacted] University of Minnesota, Minneapolis, Minnesota. T-1 stated that he recalled that BRESLOW associated with a left-wing group of individuals during this period who were interested in campus political issues. T-1 advised that with reference to the left-wing group, he had in mind individuals who were possibly associated with such organizations as the Young Communist League. T-1 stated that he had no specific information that the applicant was a member of the Young Communist League and that he was unable to recall the names of any organizations or individuals with whom the applicant was associated other than a Student Forum group on the campus of the University of Minnesota. T-1 described the Student Forum as a cross-section of students of all political beliefs at the University of Minnesota during the period the informant was a student. T-1 advised that the Student Forum, in his opinion, was not controlled by any subversive organization and that his recollection of the Student Forum's activities was that the organization was a student luncheon group which quite frequently invited nationally known individuals to speak on current controversial issues. The informant advised that he recalled the applicant was associated in the Student Forum; however, he had no specific knowledge concerning the applicant's membership in any subversive organization.

T-1 was recontacted on September 30, 1957, at which time the informant stated that he still would be unwilling to furnish a signed statement or appear before a Hearing Board regarding the information he furnished concerning Dr. LESTER BRESLOW in 1952. T-1 said that the information which he furnished in 1952 was true to the best of his knowledge and that he had nothing further to add. T-1 declined to furnish a signed statement because of the hearsay nature of his information or appear before a Hearing Board [redacted]

"I, LEE LOEVINGER, attorney, 1010 Midland Bank Building, Minneapolis, Minnesota, give the following voluntary statement to [redacted] who has identified himself to me as a special agent of the Federal Bureau of Investigation. I am willing to relate this information to a Security Hearing Board if necessary.

"Mr. BURGESS has inquired as to my knowledge concerning LESTER BRESLOW. According to my best recollection, I knew LESTER BRESLOW when we were both students at the University of Minnesota. I cannot state precisely the years when Mr. BRESLOW was at the University, but I was a student in the Arts College from 1929 until 1933 and in the Law School from 1933 until June of 1936, and I am certain that Mr. BRESLOW was in the University during at least several of these years.

"My recollection of student activity and political identification during this period is at this time extremely vague and rather dim. However, I do have a distinct impression that LESTER BRESLOW was known on the campus as being a campus Communist or identified in some manner with campus Communist activities or movements. I am unable to identify him in my recollection with any specific organization but my recollection as to student organizations during this period is not clear in any event.

"I also have a recollection of having known LESTER BRESLOW personally during my period on the campus and of having talked to him on various occasions although I am unable to identify any specific occasion. RESULTS OF INVESTIGATION

On October 18, 1957, Dr. STUART WELLFORD COOK, 1027 River Road, Teaneck, New Jersey, advised that he was on the staff of the University of Minnesota Hospital during the 1930's at the time that Dr. BRESLOW was an intern there. Dr. COOK said that he was a psychologist while Dr. BRESLOW was an M.D. and, therefore, he had had very little association with the applicant.

Dr. COOK said that Dr. BRESLOW's wife was a psychologist and he has met her on two or three occasions during the last twenty years at professional conventions, and at the last convention held about five years ago Dr. BRESLOW was with his wife. Dr. COOK said that he does not recall ever having heard of any organizations to which BRESLOW belonged at the University of Minnesota. He recalled BRESLOW as a very quiet person who had the reputation of being a brilliant student. He said that he did not feel that he knew Dr. BRESLOW well enough to comment concerning his character, reputation, associates, or loyalty, except to say that he knew of nothing adverse concerning him.

On October 18, 1957, Mrs. ANNABELLE HURLEY COOK, wife of Dr. STUART WELLFORD COOK, advised that the name of Dr. LESTER BRESLOW was only vaguely familiar to her and she could not say that she actually recalled him to the extent of being able to associate the name with anyone whom she knew at the University of Minnesota.

Miscellaneous

It is noted that an investigation was conducted by the Federal Bureau of Investigation concerning STUART WELLFORD COOK, Applicant, United Nations Educational, Scientific and Cultural Organization, Paris, France, under the provisions of Executive Order 10422, in September, 1955.

The International Organizations Employees Loyalty Board advised by memorandum dated October 24, 1955, that COOK received a favorable advisory loyalty determination.

RESULTS OF INVESTIGATION

Cleveland Informant T-1, who did not wish to sign a statement or to appear before any type of hearing board, on October 21, 1957 advised that she attended the University of Minnesota from [redacted]

[redacted] She stated that while at this University she became acquainted with LESTER BRESLOW who at that time was attending the medical school. She described her acquaintance with BRESLOW as at most "casual". She believes that she became acquainted with him through their membership in various campus organizations. Informant stated that she had been a member of the Minnesota Student Alliance, which was affiliated with the American Student Union, which organization she stated she believed had been designated by the Attorney General pursuant to Executive Order 10450. She said she believed that the applicant was also a member of this organization. She also stated that she had been a member of the Minnesota Youth Assembly, an organization which she described as being set up in the form of a state or national congress for the purpose of debating various issues of the day. She stated that she believed that BRESLOW was also a member of this organization.

T-1 said that [redacted]

[redacted] she considered him to be a brilliant man. She stated, however, that of her own knowledge she never knew him to be a member of the Communist Party or ever considered that he might be such. She stated that she considered him "liberal". When asked to further define this term she stated that she would be unable to

do so and that many things that were considered liberal then would not be so considered today.

The American Student Union has been cited as a communist front by the Special Committee on Un-American Activities, House of Representatives.

The informant advised that she knew that there was a branch of the Young Communist League (YCL) on the Minnesota Campus at that time and that she knew individuals who belonged to it. She stated, however, she never did belong to it and, to the best of her knowledge, neither did the applicant.

The YCL has been designated by the Attorney General of the United States pursuant to Executive Order 10450.

The informant advised that while at the University of Minnesota she had been a member of the American Youth Congress (AYC) [redacted]

[redacted] She said that to the best of her knowledge the applicant was not a member of this organization.

b7D

The AYC has been designated by the Attorney General of the United States pursuant to Executive Order 10450.

The informant stated that she was not in sympathy with security investigations [redacted]

[redacted] She was of the opinion that things that were done as a youth in school should not be held against one later in life.

Re WFO airtel 10/17/57.

Selected copies of the U. of Minnesota Daily 1932-36 were reviewed re BRESLOW with negative results. Copies were selected on basis of periods when student activities were greatest.

It is to be noted that this newspaper is published daily and during pertinent period was made up of 8 to 12 full size pages. It was noted during review of selected copies that most stories re student campus activities did not mention personalities and usually concerned a guest speaker at school functions. Only exception noted to this was in cases of election of class officers.

In view of above no further review of copies of these newspapers will be made as it is extremely time consuming and promises little if any productive results. - RUC -

Reference is made to your airtel to WFO dated 10-3-57 which set forth contents of letter from former Dean Edward E. Nicholson, University of Minnesota, to SAC, Minneapolis, in 1942.

This document indicates that Nicholson had previously been in contact with your office concerning the subject matter of letter.

In order to clarify its significance, you should thoroughly check your files for any data available concerning Nicholson's prior contact to resolve the question as to whether his reference to Breslow has any connection with article appearing in Harper's Magazine.

Reference is also made to your report dated 10-14-57 which sets forth interview of [redacted] on page 14. Since [redacted] a former member of the Young Communist League, advised that she knew of no affiliation of Breslow, in addition to the Student Forum, it would appear that she knows of no YCL affiliation on the part of Breslow. You should advise if this assumption is correct. Handle promptly and submit airtel or supplemental report as appropriate.

FEDERAL BUREAU OF INVESTIGATION
INTERVIEW REPORT

ERIC SEVAREID, 1226 North Pegram Street, Alexandria, Virginia, advised that he was formerly a student at the University of Minnesota between 1932 and 1936. He said that he remembers one LESTER BRESLOW as a student in the Medical School at the University during that time. Mr. SEVAREID said that he had no personal contact with BRESLOW; however, he knew of him through his, SEVAREID's, work on the campus newspaper.

Mr. SEVAREID said that due to the length of time since he has even thought of BRESLOW, he is not sure of any organizational affiliations on the part of BRESLOW or the identity of the associates of BRESLOW. He said, however, he does seem to remember that BRESLOW was considered to be friendly with some group or groups on the campus that were considered to be communist or communist front groups. Mr. SEVAREID said these groups were very open in their activities and their activities were reported in the campus newspaper, which also identified many of the members of these groups.

Mr. SEVAREID said that he does not feel he could comment at this time concerning BRESLOW's character, loyalty, or associates due to the length of time since he has seen him. He said also due to the time since he has seen BRESLOW and the nebulous nature of his recollection concerning him, he would not care to furnish a signed statement or to appear before a Security Hearing Board.

Colonel CARROLL S. GEDDES, United States Air Force, Washington, D. C., advised on October 8, 1957, that he was formerly a student at the University of Minnesota and following his student days was employed in the office of EDWARD E. NICHOLSON, former Dean of Students, University of Minnesota, who is now deceased. Colonel GEDDES said that in the course of his work in the Dean's office he came to contact with many other students and remembers the applicant particularly as the applicant had an excellent academic reputation. Colonel GEDDES said he does not remember the applicant's reputation as to his character and associates but he does recall that the applicant was possibly involved with a group of students who were trying to convince the University that there should be no compulsory Reserve Officers Training Corps training at the University. He said also that the applicant possibly may have been interested in other peace groups which were active at the University of Minnesota during the 1930's.

BEST AVAILABLE COPIES

The following signed statement was furnished by
Dr. KENNETH WILLIAM CHAPMAN, National Institute of Health,
Bethesda, Maryland,

Dr. CHAPMAN identified himself to the FBI in 1953
and again at the time of the current interview as a former
member of the Communist Party in Staten Island, New York.

"October 14, 1957
Washington, D. C.

"I, Dr. KENNETH WILLIAM CHAPMAN, furnish the
following voluntary statement to [redacted]
who has identified himself to me as a Special Agent
of the Federal Bureau of Investigation, United States
Department of Justice. I am willing to testify
before a Security Hearing Board in the presence of Dr.
LESTER BRESLOW and his counsel and to be cross examined.

"I first met Dr. LESTER BRESLOW when we were both
internes at the U.S. Marine Hospital, Staten Island,
New York, during the year 1938-39. I knew him quite
well during that year and during the following year.
We both resided on Staten Island from 1938 to 1940
and our families were friends. I believe he remained
at the U.S. Marine Hospital as a second year interne.
Since that time I have seen him only about two times,
both occasions being at professional meetings. I
know that Dr. BRESLOW is a graduate of the University
of Minnesota and I believe he is presently with the
State of California, Department of Public Health.

"During the time Dr. BRESLOW and I both resided
on Staten Island I saw both Dr. BRESLOW and his wife,
ALICE, on several occasions at Communist Party meetings.
There was no question in my mind about these meetings
being Communist Party meetings. It is my belief that
all of the people attending these meetings knew them to
be Communist Party meetings. I do not know if Dr. or

Mrs. BRESLOW had Communist Party cover names or if they were card carrying party members but I did consider them to be party members during the time we were attending the above mentioned meetings.

"At these meetings we discussed medical matters, paid dues and received various communist publications, such as the Daily Worker. I remember seeing Dr. and Mrs. BRESLOW paying dues.

"All of the people in attendance at these meetings were in the medical or an allied field. I do not believe that any of the people who attended these meetings took part in any activities for the Communist Party, outside of the meetings, except for a survey of health facilities on Staten Island.

"I have no knowledge of any Communist Party or communist front activities on the part of Dr. BRESLOW or his wife, ALICE, since 1940.

"I have read the above one page statement and it is true and correct to the best of my knowledge

The Communist Party has been cited by the Attorney General of the United States pursuant to Executive Order 10450.

The files of the Investigations Division, Civil Service Commission (CSC), were reviewed on October 14, 1957, and these files contain a letter dated January 8, 1953, to the Investigations Division, CSC, from the Security Office, Executive Office of the President, the President's Commission on the Health Needs of the Nation, Washington, D. C.

This letter advised the CSC that the applicant had been given two interrogatories and "after careful consideration of the replies it was the opinion of the members of the President's Commission on the Health Needs of the Nation Loyalty Board that subject's answers were not sufficient to resolve the derogatory information in this case.

"On December 20, 1952, subject left Washington, D. C., to return to his former position with the California State Department of Health. Subsequent to Dr. BRESLOW's leaving Washington on December 28, 1952, the President's Commission on the Health Needs of the Nation completed its work and the Commission was abolished.

"Therefore, because the information obtained from the subject by interrogation was not sufficient to close this case and further due to the loss of jurisdiction by discontinuation of the agency, this case is being closed without final action and the reports of the investigation are being returned. The Loyalty Review Board has been notified of loss of jurisdiction in this case."

For additional information appearing in the files of the Investigations Division, CSC, see Exhibits A, B, and C.

There was no additional pertinent information located in the files of the Investigations Division, CSC.

The files of the House Committee on Un-American Activities were reviewed on October 1, 1957, and no record was located for the applicant.

The files of the Security Office, Department of State, were reviewed on October 16, 1957, and no record was located for the applicant.

The files of the Senate Internal Security Subcommittee were reviewed on October 3, 1957, and no record was located for the applicant.

The files of the Passport Office, Department of State, were reviewed on October 4, 1957, and these files show that LESTER BRESLOW was issued a passport on July 15, 1957, for proposed six weeks travel to France, Holland, England, Switzerland, and Denmark to attend a professional meeting in Holland and to visit medical research institutes. This file also shows that BRESLOW stated he had been issued a passport in 1932; however, no record was located of this passport. There was no additional pertinent information located in this file concerning the applicant.

The files of the Credit Bureau, Incorporated, Washington, D. C., were reviewed on October 9, 1957, and no record was located for the applicant.

The files of the Metropolitan Police Department, Washington, D. C., were reviewed on October 9, 1957, and no record was located for the applicant; at all times an indefinite number of unidentified records are out of file and not available for review.

The files of the United States Park Police were reviewed on October 9, 1957, and no record was located for the applicant.

Confidential informants who are familiar with certain phases of the Communist Party activity in the Washington, D. C., area advised on October 12, 1957, that they do not know the applicant and could furnish no information concerning him.

RESULTS OF INVESTIGATION

On October 22, 1957, [redacted]
[redacted] Chicago, Illinois, advised as follows:

[redacted] was enrolled in the School of Literature, Science and Arts at the University of Minnesota from [redacted] to [redacted]. Over a period of about one year in 1936 or 1937, she had infrequent, casual social contact with LESTER BRESLOW and also with an ALICE PHILIP or PHILLIPS, who, she understands later became BRESLOW's wife. These contacts were at "teas" at the student union building at the university or other informal social gatherings. Although [redacted] now considers that she herself was "naive", politically, at that time, she was never a member of any organized group on the campus, such as the National Student League or the Young Communist League. She did not know BRESLOW or PHILIP to be a member of any organization and had no reason to think they had Communist sympathies. Both BRESLOW and PHILIP were "intellectuals" and BRESLOW believed in the development of unions and "uplifting the standards of his fellow men". From her knowledge of BRESLOW she believed him to be of good character, and one who had no disloyal sympathies or tendencies.

Confidential informants who had some knowledge of University of Minnesota activities in the middle 1930's, were contacted and advised they did not know BRESLOW or ALICE PHILIP and could furnish no information concerning them.

The National Student League (NSL) was cited as the Communists' front organization for students, about which EARL BROWDER, former general secretary of the Communist Party (CP), said, "From the beginning it has been clearly revolutionary in its program and activities". This citation was made by the Special Committee on Un-American Activities, House Report 1311 on the CIO Political Action Committee, March 29, 1944, page 119; also cited in Annual Report, H. R. 2, January 3, 1939, page 80.

Attorney General FRANCIS BIDDLE (in re HARRY BRIDGES, May 28, 1942, page 10), cited the NSL as a "front organization of the Communist Party."

The Young Communist League has been designated by the Attorney General of the United States pursuant to Executive Order 10450.

RESULTS OF INVESTIGATION

AT IMOLA, CALIFORNIA

On October 24, 1957, Dr. WILLIAM Y. HOLLINGSWORTH was interviewed at the Napa State Hospital and advised that he was Officer in Charge of the Marine Hospital, Stapleton, New York, from 1937 to 1944. Dr. HOLLINGSWORTH stated that he recalled the Applicant serving his internship in the Marine Hospital and stated he had limited social contact with him, such as at dances and when the Applicant might have had reason to come to his home. He stated his contact with the Applicant at the hospital was in the normal course of study and practice.

Since leaving New York, Dr. HOLLINGSWORTH advised that he has seen the Applicant on several occasions as the Applicant is employed by the California State Department of Health. He stated these meetings are in the course of business and not on a social plane.

Dr. HOLLINGSWORTH stated he has never, to the best of his recollection, had any discussions on politics with the Applicant and he does not know of any organizations to which the Applicant belongs. He further advised that he was not aware of the Applicant's activities away from the hospital during his internship at New York and could not now recall who the Applicant's associates would have been in New York.

He concluded that he believes the Applicant is a person of good character and a loyal American and he would recommend him for a position of trust.

In 1953 and again in October, 1957, Dr. KENNETH WILLIAM CHAPMAN, now of the National Institutes of Health, Bethesda, Md., admitted being a former CP member. He advised he met the applicant in 1938, at which time they were both interns at the U. S. Marine Hospital, Staten Island, NY. He advised in the 1953 interview he was introduced to BRESLOW, and his wife ALICE, in 1938 by one [redacted] (who married one [redacted] in 1939) and she said they (BRESLOW and wife) had been communists and were being re-activated into the (communist) group with CHAPMAN. CHAPMAN advised in 1957, he does not recall if he met BRESLOW through [redacted] or because they were both interns at the Marine Hospital. He said on both occasions that BRESLOW and his wife, ALICE, did attend CP meetings with him.

b6

CHAPMAN said the CP group met at the home of one Dr. LEWIN on Victory Blvd., Staten Island, NY, and others in attendance included BRESLOW and his wife, ALICE; LEWIN's son, [redacted] and [redacted] wife, [redacted] daughter, [redacted] one Dr. SAUL SELIKOFF, and one Dr. FRANKEL.

Dr. CHAPMAN said he did not see the CP card of BRESLOW or Mrs. BRESLOW but he did consider them to be communists because it was his opinion that it was generally known that the meetings they attended were CP meetings and he remembers seeing both the applicant and the applicant's wife paying dues to [redacted] who also collected CP dues from him.

FEDERAL BUREAU OF INVESTIGATION
INTERVIEW REPORTb6
b7C

On October 23, 1957, [redacted] New York, New York, advised that he had been a member of the Young Communist League (YCL) while he was attending the University of Minnesota from 1935 to 1937. He said that he recalled a LESTER BRESLOW as a fellow member of this group, but that he would not care to make a positive statement unless he could first observe a photograph of the applicant.

On November 4, 1957, [redacted] was recontacted, and a photograph of LESTER BRESLOW, secured from the University of Minnesota Medical College records was exhibited to him. Mr. [redacted] positively identified this photograph as the individual he had known as LESTER BRESLOW and as a fellow member of the YCL at the University of Minnesota in 1935-1937. [redacted] explained that the YCL at the University of Minnesota was a very loosely knit group which had a reputation of semi-respectability on a campus where such groups as Socialists, Farmer-Labor and other so called "progressive" groups were recognized by the college authorities. He said that he did not know of the existence of the Communist Party (CP) on the campus, and did not know of any control or direction of the YCL by the CP.

[redacted] stated that both he and LESTER BRESLOW were merely members of the YCL, and did not have anything to do with the leadership of the group. He said that he was not aware of any statement made by LESTER BRESLOW concerning support of the working class even if it meant revolution. He said that this would have been a typical stand of any of the YCL members, but such a statement would not have been made by one member to another. He said that his association with LESTER BRESLOW was limited entirely to their YCL membership.

[redacted] said that he has had no contact with LESTER BRESLOW since he left the University of Minnesota in June, 1937. He said that he has a vague recollection of seeing the applicant in a restaurant in Washington, D. C., during World War II, but that they did not speak and he is not positive of this identification of LESTER BRESLOW.

[redacted] advised that he does not consider himself to be qualified to comment on the loyalty or patriotism of LESTER BRESLOW at the present time. He said that judging from his own experience, it would be entirely possible for a person to have been a member of the YCL during his early years, but to have made a complete reversal of his feelings and beliefs. He explained that with himself, he had no further contact with the YCL after leaving college, and became completely disillusioned with Communism in any form at the time of the Hitler - Stalin Pact.

[redacted] stated that if necessary, he would be willing to appear before an International Organizations Employees Loyalty Board, and would consider it his duty to do so. He said, however, that he would want assurances that the hearing

would be confidential because his contract with his employer contains a clause concerning undue notoriety or publicity. He said that he would also need sufficient time to arrange his work, since it often takes him on extended trips away from New York, New York.

[redacted] volunteered the information that he had been investigated and cleared as to his loyalties to this country, although he had been barred from Government employment for a period of one or three years for not revealing his former YCL membership.

[redacted] was investigated by the Federal Bureau of Investigation during 1952 in the matter entitled, [redacted] also known as [redacted] [redacted] Washington, D. C., LOYALTY OF GOVERNMENT EMPLOYEE."

The Loyalty Review Board advised by memorandum dated September 26, 1952, that [redacted] was "Eligible on loyalty." The Civil Service Commission advised by memorandum dated July 6, 1954, as follows "EO 9835 only - Subject was removed on 11/28/52."

b7C

The Young Communist League has been designated by the Attorney General of the United States pursuant to Executive Order 10450.

A report submitted by another office of the Federal Bureau of Investigation in this matter contains information relating to meetings of the CP, held in the home of one Doctor LEWIN on Victory Boulevard, Staten Island, New York, according to Doctor KENNETH WILLIAM CHAPMAN. At these meetings, in addition to the applicant and his wife, were Doctor LEWIN, his daughter, [redacted] his son, [redacted] and ROBERT LEWIN'S wife, RUTH, among others. Doctor CHAPMAN named [redacted]

who, he said, married [redacted] in 1939, as a person who had informed him that LESTER BRESLOW and his wife, ALICE BRESLOW, had formerly been members of the CP.

The Communist Party has been designated by the Attorney General of the United States pursuant to Executive Order 10450.

New York T-1, who advised in 1954 that he had been a close associate of the LEWIN family for more than fifteen years, including the late 1930s, advised at that time that Doctor SAMUEL LEWIN, his wife, MARY LEWIN, his daughter, FANNY LEWIN, all deceased, his son, ROBERT LEWIN, and two other daughters were all active in the Communist movement, and that meetings of the CP, YCL and International Workers Order (IWO) were held in the LEWIN home during the late 1930s.

New York T-1 was recontacted on October 15, 1957, and stated that the name of BRESLOW was vaguely familiar to him as a person visiting at the LEWIN home. He said that he could furnish no other information concerning this BRESLOW.

The International Workers Order (IWO) has been designated by the Attorney General of the United States pursuant to Executive Order 10450.

During an investigation in another matter, conducted by the Federal Bureau of Investigation, the following information was ascertained:

While serving in the United States Navy, [redacted] was interviewed before a Naval Loyalty Board in February, 1950. At that time he stated that he had married the former [redacted] in 1939. He testified that he had been a member of the CP for one year during 1938 and 1939, and that prior to 1943 he had been a member of the American League Against War and Fascism (ALAWF), the American League for Peace and Democracy (ALPD), the American Peace Mobilization (APM), the American Youth Congress (AYC), and the YCL. He also stated that he had taken part in the Spanish Civil War as a member of the Abraham Lincoln Brigade (ALB). *NY 102/11*

The ALAWF, ALPD, APM, AYC and ALB have been designated by the Attorney General of the United States pursuant to Executive Order 10450.

On April 18 and 21, 1952, [redacted] was contacted by Special Agents of the Federal Bureau of Investigation for the purpose of arranging an interview about his activities. On the latter date, [redacted] stated that upon advice of his attorney, he would not grant an interview.

Employment

[redacted]
Staten Island, New York

On September 30, 1957, [redacted] Personnel Office, advised that no records are maintained at the hospital after the separation of the employee, but that the records would be available at Washington, D. C.

On October 15, 1957, [redacted] Payroll Section, stated that she had located a payroll card indicating that LESTER BRESLOW had been at the hospital from July 1, 1938 to June 30, 1940, as a first and second year intern.

On October 15, 1957, [redacted] Secretary to the Administrative Officer, advised that she had only the vaguest recollection of a Doctor BRESLOW. She said that none of the medical personnel have been assigned to the hospital long enough to have known him.

[redacted] Superintendent, Nursing Division, advised on October 15, 1957, that she remembered Doctor BRESLOW slightly, but could not comment about him.

[redacted] Operating Room Technician, advised on October 15, 1957, that the name of Doctor BRESLOW was familiar to him, but that he could not recall him well enough to comment about his loyalty or character.

[redacted] Social Service Director, advised on October 15, 1957, that she recalled Doctor BRESLOW only vaguely and could not comment about him or his outside activities.

Miscellaneous

[redacted] Credit Bureau of Greater New York, advised on October 14, 1957, that her files contain no information concerning a Doctor LESTER or Mrs. ALICE BRESLOW.

On October 11 and 15, 1957, representatives of the Bureau of Special Services and the Bureau of Criminal Identification of the New York City Police Department, advised that their respective files contain no information identifiable with LESTER or ALICE BRESLOW.

Confidential informants, who have a general knowledge of CP activities in the New York City area, advised in October, 1957, that they have no knowledge of LESTER or ALICE BRESLOW.

Mobile, Alabama
November 8, 1957

RESULTS OF INVESTIGATION

AT MONTGOMERY, ALABAMA

Dr. SOLOMON JOSEPH SELIKOFF, business address 57 Adams Avenue, residence 2624 Woodley Road, advised on November 6, 1957 that he was associated with Dr. LESTER BRESLOW from January, 1939, to December, 1939, while they were interns at the U. S. Marine Hospital, Staten Island, New York. Dr. SELIKOFF said he has had no contact with Dr. BRESLOW since that time.

Dr. SELIKOFF advised that his only association with BRESLOW was at the hospital and to his knowledge he attended no meetings with BRESLOW which could be described as meetings of the Communist Party or front groups or organizations whose aims or purposes were contrary to the best interests of the United States. Dr. SELIKOFF recalled that he probably attended meetings of the Interns Council with BRESLOW. He said the Interns Council was an organization comprised of interns of New York City whose aims were to procure better educational facilities and better salaries. Dr. SELIKOFF volunteered that he, himself, has never been a member of the Communist Party or front group or any organization with aims or purposes contrary to the best interests of the United States and to his knowledge BRESLOW was not a member of any such group.

Dr. SELIKOFF said he could not recall any statements made by BRESLOW that would indicate BRESLOW was of questionable loyalty nor did he know of any associates of BRESLOW about whom there would be a question of loyalty.

Dr. SELIKOFF stated, however, that based on general conversations with BRESLOW at the hospital at Staten Island during the above period of time, that he was of the opinion that BRESLOW was a little "left wing". By "left wing", SELIKOFF said he did not mean BRESLOW was a Communist or sympathetic toward any organization with interests contrary to those of the United States or disloyal in any fashion. He explained that BRESLOW's beliefs did not follow or exactly coincide with the general conservative beliefs in politics, government, economics or education which would be unquestioned by anyone. He said that BRESLOW was probably an "intellectual" in that at that time he was interested in improving economic conditions and probably read and discussed books on such subjects as Marxism and was probably very anti-Hitler. Other than the above explanation, Dr. SELIKOFF did not specifically remember why he recalls BRESLOW as "left wing".

b6
b7C

Dr. SELIKOFF said he did not recall ever knowing Dr. LEWIN. FANNIE LEWIN, [redacted] or [redacted]. He said the name Dr. [redacted] sounded familiar but he had no specific recollection of him. He also advised he recalled there were two interns by the name CHAPMAN at the U. S. Marine Hospital, one of whom might possibly have been KENNETH CHAPMAN, but he had no specific recollection of either CHAPMAN.

The Communist Party, USA, has been designated by the Attorney General pursuant to Executive Order 10450.

[redacted] advised that from 1940 until 1953, his father and mother resided at 1637 Victory Boulevard, Staten Island, when his father died.

[redacted] stated that he resided at the family home until he and [redacted] were married on November 19, 1938 at Staten Island, New York, and that he had been employed by [redacted] when he came to California.

[] informed that he has no brothers and that he has three sisters, but none of them are named RUTH LEWIN.

AMERICAN LABOR PARTY

1. "For years, the Communists have put forth the greatest efforts to capture the entire American Labor Party throughout New York State. They succeeded in capturing the Manhattan and Brooklyn sections of the American Labor Party but outside of New York City they have been unable to win control."
(Special Committee on Un-American Activities, House Report 1311 on the CIO Political Action Committee, March 29, 1944, p. 78.)
2. "Communist dissimulation extends into the field of political parties forming political front organizations such as the *** American Labor Party. The Communists are thus enabled to present their candidates for elective office under other than a straight Communist label."
(Internal Security Subcommittee of the Senate Judiciary Committee, Handbook for Americans, S. Doc. 117, April 23, 1956, p.91)

On October 7, 1956, Peter Hawley, New York State chairman, American Labor Party announced that the American Labor Party state committee unanimously approved a resolution dissolving the organization and ordering the liquidation of its assets.

Washington, D. C.
November 15, 1957

RESULTS OF INVESTIGATION

As previously noted, Dr. KENNETH WILLIAM CHAPMAN was interviewed in 1953, and there is set forth below information furnished by him:

He advised he was born in Massachusetts and his family home has been and is Springfield, Massachusetts. He received the degree of Bachelor of Science in 1932 and Master of Science in 1934, both from the University of Massachusetts. He then attended Yale University Medical School from 1934 until his graduation in May, 1938.

He advised that in late 1937 or early 1938 he became actively interested in the well-being of his fellow men. He became interested in the work labor unions were doing for the lower classes, not specifically as pertaining to their union activities, but as pertaining to general increase in the living standards of the lower classes which he ascribed to labor activity. Being interested and desirous of improving the lot of the underprivileged, he gravitated naturally to those of like views.

b6
b7c

He advised that at this time he became closely associated with four individuals at Yale Medical Hospital: [redacted] and [redacted] students, and Dr. [redacted] an interne. Of these, [redacted] was CHAPMAN's friend and developed ideologically along with him; and [redacted] appeared to be the leader of the other three.

He advised further that for a period of time shortly before his graduation [redacted] and [redacted] individually and together, talked to him about the aims and purposes of the Communist Party (CP). Each tried to recruit [redacted] and CHAPMAN and finally, shortly before graduation, they agreed to join

the Party, but all agreed that it would be better for them to wait until they reached the Marine Hospital, Staten Island, New York, where [] and CHAPMAN were to intern before formally becoming affiliated.

He advised that he and [] were told (probably by [] that they should contact a doctor at Seaview Hospital near the Marine Hospital, who would take care of their entrance into the Party. CHAPMAN advised that at the time he could not recall this man's name but did recall that they contacted him. He advised also that they were told also to see a nurse at the Marine Hospital named [] (who married [] in 1939) for the same purpose. He advised they did contact this nurse, and she introduced them to Dr. LESTER BRESLOW (wife ALICE). [] stated that this pair had been communists and were to be reactivated into the group with [] and CHAPMAN. CHAPMAN advised that the [] introduced them to Dr. ----- LEWIN (a physician in private practice who resided on Victory Boulevard just past Silver Lake on Staten Island). The meetings of the newly formed group invariably were held at LEWIN's home except for one that CHAPMAN recalls was held at his house because LEWIN was away. CHAPMAN advised further that as well as he could recall at that time the following were members of this group:

Dr. LEWIN (CHAPMAN believes that LEWIN's wife was not sympathetic);

LEWIN's unmarried daughter FANNIE (a cripple, apparently as the result of polio or an allied disease);

LEWIN's son [] []

[] wife [] (?);

Dr. LESTER BRESLOW;

BRESLOW's wife ALICE;

Dr. SAUL SELIKOFF (apparently in private practice in New York);

Dr. -----FRANKEL (a second-year interne at the Marine Hospital, who told CHAPMAN he was severing his connections with the Party in 1939);

CHAPMAN.

CHAPMAN advised that others attended from time to time, but he could not recall their names. He had no information concerning any group or "higher" CP contacts.

It is noted that in later describing Dr. BRESLOW, he noted that at one time he was an employee of the State of California in charge of the Crime Disease Program and he later believed that he was an employee of the Veterans Administration.

Re San Francisco letter 4/21/60.

The Bureau does not believe that an interview of Dr. Lester Breslow would be desirable at this time.

If, however, any information comes to the attention of your office in the future which might indicate current subversive activities on the part of Dr. Breslow, you may desire to resubmit your request to interview him at that time or advise the Bureau that you are reopening his case for a security-type investigation.

Re: LESTER BRESLOW, M.D.

note continued

Subject and his wife both attended Young Communist League (YCL) and CP meetings in late 1930's. He was "an associate" of known CP member in California 1944 and 1946. No recent info has been developed re CP activities on part of subject or his wife. Breslow, during 1950's, was the subject of LGE and LEUN investigations, and he resigned or was otherwise separated from each position prior to a decision being made on his loyalty.

Since he appears now to have assumed a position of respectability, it is very possible that he might take offense at any approach made to him by the FBI at this time. The possibility of embarrassment outweighs any probable value that we could gain from such an interview. If he has been approached by Czech intelligence or is otherwise engaged in subversive activities, it is felt that matter will come to attention of SF in the future. If any action is necessary at that time, the case can be reevaluated.

SECURITY OF GOVERNMENT EMPLOYEES

Reference is made to letter dated August 18, 1977, to the Director of the FBI requesting a full field investigation under the provisions of Executive Order (EO) 10450, as amended, concerning captioned individual. The basis for your referral was information in the files of the FBI concerning captioned individual who was the subject of a security-type investigation in 1952, and an applicant-type investigation in 1957, both of which were conducted by this Bureau.

The FBI files contain allegations by FBI sources that captioned individual was believed to be a Communist while at the University of Minnesota from 1932-1938, was a member of the Young Communist League at the University of Minnesota during 1935-1937, and was a member of and active in the Communist Party, USA, during the period 1938-1940. Captioned individual allegedly visited reported members of the Communist Party in Alameda County, California, during 1944. Captioned individual during 1950's was the subject of a Loyalty of Government Employees and Loyalty of Employees of the United Nations and Other Public Organizations investigations, and he resigned or was otherwise separated from each position prior to a decision being made on his loyalty.

The central files of this Bureau contain no additional pertinent information regarding captioned individual; therefore, this Bureau contemplates no investigative action under the provisions of EO 10450, as amended, without a specific referral in accordance with Section B(d) of the EO.

This is furnished for your information and should not be disseminated to any unauthorized persons or agencies. This is not to be considered as a clearance or disapproval for employment of captioned individual.
